INDEPENDENT AUDITOR'S REPORT

To the Board of Directors of Josephine County Food Bank Inc.

Report on the Financial Statements

We have audited the accompanying financial statements of Josephine County Food Bank Inc. (a nonprofit organization) which comprise the statements of financial position as of June 30, 2021 and 2020, and the related statements of activities, functional expenses, and cash flows for the years then ended.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on these financial statements based on our audit. We conducted our audits in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audits to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence supporting the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, and include the assessment of risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Opinion

In our opinion, the financial statements referred to above present fairly, in all material respects, the financial position of Josephine County Food Bank Inc. as of June 30, 2021, and changes in its net assets and its cash flows for the year then ended in conformity with accounting principles generally accepted in the United States of America.

Note 1 - Nature of Organization and Purpose

Josephine County Food Bank Inc. was incorporated in the State of Oregon in 2015 to operate as a charitable nonprofit organization dedicated to the management of the Josephine County food bank. The mission of the Organization is to collect food and distribute it to both individuals and other organizations in the community.

Note 2 - Summary of Significant Accounting Policies

A summary of the significant accounting policies used in preparation of the Organization's financial statements is as follows:

Basis of Accounting

The financial statements of the Organization have been prepared on the accrual basis of accounting in accordance with accounting principles generally accepted in the United States of America. In accordance with the accrual basis of accounting, revenues are recorded when earned and expenses are recorded at the same time liabilities are incurred.

Cash and Cash Equivalents

Cash includes interest-bearing demand deposit accounts at financial institutions. Aggregate balances in accounts are insured by the Federal Deposit Insurance Corporation (FDIC) up to \$250,000. At June 30, 2021 aggregate balances exceed the FDIC coverage limit by \$42,000.

Accounts Receivable

Accounts receivable mostly consist of payments from partner agencies for food. Management believes that all receivables are fully collectible.

Buildings, Vehicles and Equipment

The Organization capitalizes the cost of acquisitions of buildings, vehicles, and equipment over \$1,000. Buildings, vehicles, and equipment are depreciated when placed in service using the straight-line method over estimated useful lives of five to thirty-nine years. Leasehold improvements are depreciated using the straight-line method over the shorter of the estimated useful life or the lease term. Fixed assets are valued at cost if purchased or fair market value if contributed. Depreciation expense for the year ended June 30, 2021 totaled \$57,249.

Inventory

Inventories consisting of primarily donated perishable and nonperishable food and are reported at the lower of cost or fair market value. Donated inventory are recorded as revenue at their commodity values using the industry standard rates published by the Oregon Food Bank.

Investments in Marketable Securities

Investments consisting of marketable equity securities are reported at their fair market value. Fair values are based on quoted market prices. The realized and unrealized gains or losses on investments are reflected in the statement of activities.

Investments are exposed to various risks such as significant world events, interest rate, credit, and overall market volatility risks. Due to the level of risk associated with certain investments securities, it is reasonably possible that changes in the fair value of investments will occur in the near term and that such changes could materially affect the amounts reported in the statement of financial position.

Investments are covered by Security Investors Protection Corporation (SPIC), which covers such assets up to a maximum of \$500,000, of which \$250,000 may be cash. SPIC coverage does not protect the Organization from changes in the fair market values of underlying investments.

Note 2 - Summary of Significant Accounting Policies (continued)

Accrued Paid Time Off

For the year ended June 30, 2021, the Organization has accrued a liability for paid time off (PTO) for all full-time employees and for part time employees working 20 hours or more per week. Up to 50% of unused PTO may be accumulated and carried into the next fiscal year. At June 30, 2021 and 2020, the Organization had a liability for paid time off of \$6,512 and \$1,536 respectively.

Statement of Functional Expenses

The costs of providing program services and other activities have been summarized on a functional basis in the statements of functional expenses. The Organization uses specific identification to account for most functional expenses, reporting activity in the general categories of program services, fundraising, and management and general.

Restrictions on Net Assets

Restrictions on net assets at June 30, 2021 are related to funds raised through various development efforts where the donors have restricted their gifts to a specific purpose.

Revenue Recognition

Revenue consists primarily of contributions from the general public of both cash and commodities (food), agency fees for food provided to other similar local organizations, and grants.

Contributions and In-Kind Donations

Donations of assets are recorded as support at their estimated fair market value at the date of donation. Contributions and public support received by the Organization are recorded as unrestricted or restricted revenue or support, depending on the existence or nature of any restrictions. Contributions with restrictions are reported as an increase in unrestricted net assets if the restriction expires in the same reporting period in which the grant is recognized. Other restricted contributions are reported as an increase in restricted net assets, depending on the restriction. When a restriction expires, restricted net assets are reclassified as increases to unrestricted net assets.

Donated services are recognized as contributions only if the services create or enhance nonfinancial assets, or if the provided services require specialized skills that would otherwise be purchased by the Organization. Volunteers also provided various services throughout the year that did not meet recognition criteria under generally accepted accounting principles.

Donated Commodities are recorded as revenue at the commodity value using the industry standard rate published by the Oregon Food Bank.

Food received from the Oregon Food Bank and passed through to local agencies are treated as agency transactions and are not recorded as contribution revenue.

Advertising Costs

Advertising costs are expensed as incurred. The Organization's advertising costs for the year ended June 30, 2021 and 2020 were \$30,280 and \$3,931 respectively.

Tax Status

The Organization is a not-for-profit organization that is exempt from income taxes under Section 501(c)(3) of the Internal Revenue Code and classified by the Internal Revenue Service as a public charity.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results could differ from those estimates.

Note 2 - Summary of Significant Accounting Policies (continued)

Date of Management Review

Management has evaluated subsequent events through December 20, 2021, the date the financial statements were available to be issued.

Note 3 – Investments in Marketable Securities and Summary of Fair Value

Investments in marketable securities consist of equity investments.

The Organization has adopted ASC 820-10 which establishes a framework for measuring fair value and requires additional disclosure about the use of fair value measurements to make the measurement of fair value more consistent and comparable.

ASC 820-10 defines fair value as the amount that would be received from the sale of an asset or paid for the transfer of a liability in an orderly transaction between market participants, i.e. an exit price. To estimate an exit price, a three-tier hierarchy is used to prioritize the inputs:

<u>Level 1</u>: Quoted prices in active markets for identical securities.

Level 2: Other significant observable inputs.

<u>Level 3</u>: Significant unobservable inputs.

All Organization's investments in marketable securities are valued based on quoted prices in active markets for identical securities (Level 1).

The interest in assets held by the OR Community Foundation at the fair value of the Organization's share of the OR Community Foundation's investment pool as of the measurement date. The Foundation values securities and other financial instruments on a fair value basis of accounting. The estimated fair value of investments of the Foundation include investments where the prices are not readily available (Level 3).

The following table provides further details on the fair value of measurements as of June 30, 2021:

Note 8 – Unusual Events

COVID-19 was declared a pandemic in March of 2020. The full impact of the pandemic continues to evolve as of the date of this report.

To help mitigate the impact of the COVID-19 crisis, Josephine County Food Bank Inc. applied for and was awarded benefits under the Federal Paycheck Protection Program in the amount of \$66,800 in April of 2020. Under this program, benefits received are recorded as a low interest rate loan at the time of receipt of funds and may be partially or fully forgiven if certain conditions are met. Loan amounts become unrestricted revenue once the conditions for forgiveness have been met. Josephine County Food Bank received full forgiveness of the Paycheck Protection Loan on April 22, 2021.
